ACOUSTICS | SAFE CARGO | RE-ENERGY

Dear Colleagues,

We are delighted to announce the creation of our new label **GROUP SCIENCE GP** by uniting the labels Safe Cargo and Acoustic Science, which have been supporting you for years in the areas of Noise Insulation | Acoustics | anti-Vibration Control as well as in the field of Safe Transportation of Loads respectively.

Always aiming to improve our quality we constantly grow, improve our operations and extend our services by offering complete coverage of your needs. We have been also certified according to **ISO 9001/2008** by TÜV Nord for all areas of our activity [Consulting, Commercial and Construction Sectors].

GROUP SCIENCE GP is our new "stamp" on the market and at the same time the evolution of our already known high quality standards. We aim to make our mark by providing services with upgraded features and delivering excellence to our clients.

GROUP SCIENCE GP is now divided into three departments [Acoustics | Safe Cargo | Energy Saving / Renovation] three fields in which both our deep knowledge, our staff expertise and our experience on projects have defined our current strong position on the market.

We honour and feel thankful for your cooperation and your support so far.

We trust that we will respond to your requirements and expectations by delivering always superior value.

Always at your disposal,
The Scientific Team of GROUP SCIENCE

your business our science
